About Aurora Careers

You're here because you have a passion for making people's lives better. With our wide range of career opportunities, you'll not only fulfill that passion, you'll thrive and grow every day, with leading benefits, unique opportunities, an atmosphere of innovation, and a positive, caring, and welcoming culture. The best of the best. When you work at Aurora, you'll work with a dedicated team that's as passionate about the work as you are. And you'll enjoy limitless opportunities for ongoing learning and career advancement.

Because we pride ourselves on taking care of our people. And not just our patients – we mean you, too.

#1

Aurora St. Luke's is top hospital in Milwaukee (US News & World Reports)

1.2+

million unique patients served

33,000

employees, making Aurora the largest private work-force in Wisconsin

Growth Opportunities

At Aurora, we'll work with you to find your optimum career path. We'll provide tools and resources to empower you to keep your career moving forward.

- Tuition reimbursement: applies to any type of job, as long as it helps you advance at Aurora
- Onsite training credits: to help you maintain your certifications at low or no cost
- Career guidance: from leaders at Aurora who want to help you succeed
- Growth opportunities: as health care continues to expand, you'll work for a strong, stable company that provides room to grow

Quality & Innovation

At Aurora, you'll stay ahead of the curve in providing innovative procedures and treatments. You'll join a team of world-renowned medical experts who are leading the way in important areas such as minimally invasive procedures and robotic techniques. For example, in the field of VATS (Video Assisted Thoracic Surgery) and robotic assisted surgery, Dr. William Tisol is a world leader, having performed more than 500 robotic surgeries in his career. We're also leading the way in telemedicine solutions, partnering with EmOpt, Inc., a cutting-edge IT company, to improve ER triage wait times. And these are just two examples of how Aurora is leading the way on innovation.

In addition to saving and improving lives, innovations like these reduce recovery time and shorten hospital stays. Because when it comes to delivering top-quality care, you need the best tools to make the biggest difference. [Learn more about The Future of Medicine.](#)

Sustainability & Wellness

At Aurora, you'll join a team whose commitment to helping people live well extends beyond the walls of our hospitals. We understand how your health connects to the health of the environment — that's why we're committed to supporting personal wellness and preserving a healthy environment for our patients, team members and the communities we're privileged to serve. [Learn more about Sustainability & Wellness.](#)

Culture

Where you work is as important as what you do. At Aurora, you'll always feel at home in our friendly, welcoming, diverse, and empowering culture.

Benefits

It's not always about work – Aurora wants you to lead a full, balanced, healthy life. We offer a wide range of leading benefits to help you live your best life.

Comprehensive Medical & Dental

If you're assigned 40 hours or more per two week pay period, you'll get coverage for you and your dependents. You can also enroll in our health savings or flexible spending accounts.

Vision Plan

Take care of your eyes with a comprehensive vision plan that covers routine eye exams, eyeglasses, and contact lenses.

Life Insurance

We provide free basic life insurance to caregivers assigned 40 or more hours per pay period.

Tuition Reimbursement / Education Assistance

We'll help you pay for courses or degrees related to your job. Special benefits are available for those pursuing nursing degrees.

Retirement Savings Plan

Aurora provides an incentive retirement savings plan with employer match, plus an additional non-matching contribution. Savings may be set aside pre-tax or after-tax.

Paid Time Off (PTO)

We give you control over when and how you use your accrued time off. If you're assigned 40 or more hours per pay period, you're eligible for PTO.

Top-Quality Care

At Aurora, you'll be part of an award-winning team, one of the best in the business.

Career Areas

As the largest employer in Wisconsin, Aurora has the perfect role for you to thrive. Your passion coupled with our resources and support ensures you'll succeed and grow with ongoing opportunities.

Applicant Resources

We want you to find the perfect role to begin your career at Aurora, and make the application process as easy as possible. If you're ready to apply - but are wondering what the process is like - we've got you covered.

1 Use the search tool to find a job opening that matches your interests, talents and passions.

2 Create an online application profile. This information will be saved for any future applications you submit.

3 Submit online application materials. This may include your resume, cover letter, etc.

4 Check back to view your application status for each position to which you applied.

Application Process

How long does it take to complete the application?

The average time to set up your profile and complete the initial process is only about 15 minutes, but grab a cup of coffee and take your time. Once your profile is created, it takes only a few minutes to apply for additional jobs.

How do I check the status of my application?

Simply click on this link to the Careers home page, log back into your profile, and navigate to My Job Applications. There you can see your status for each job you've applied for.

How do I manage or update my account information?

To update your account information, first log into your Careers account (use the box in the upper right corner of your screen), select My Account Information. There you can update your contact information (be sure to save your changes!). Note: You can only add a new resume, cover letter or change your application responses when you are applying for another position.

I'm having trouble completing my application, or a section within my application.

If you are having technical/navigational issues or have questions, you can call the Recruitment Service Center at [414-389-2600](tel:414-389-2600) or send an email through the [Contact Us](#) form.

Is it possible to make an update and/or change something on my resume or application after it's been submitted?

Once an application is submitted, your info is on its way to our recruiters and no longer possible to update or change.

How will I know if you've received my application?

After your application is submitted, an auto-generated confirmation email will be sent to the email address you entered. Be sure to check spam folders if you don't receive it right away.

Will I be contacted by Aurora to let me know the status of my application?

For many of our open positions, we get a large number of applicants. Unfortunately, this means it's hard to give every candidate the individualized attention that we'd like to give. You are able to check the status of your application at any time - see the question above, "How do I check the status of my application?" If we think you are a good fit for one of the positions you apply to, you will hear from one of our recruiters on next steps.

How can I be alerted to new jobs I might be interested in?

You can set up a saved search within our applicant tracking system (PeopleSoft). Start by registering or signing in to your account via the links in the upper right hand corner of this page. Click on View All Jobs and enter your search criteria. Select the Save Search button, then follow the prompts to complete the process. You'll be notified when new positions are posted that match your search criteria.

Employment Process

What can I expect during a drug screen?

Patient and caregiver safety is of utmost importance at Aurora, so every caregiver is given a drug test via hair sample. A hair specimen approximately the size and width of a popsicle stick is required to satisfy the testing sample requirements and is removed in as discrete a spot as possible. NOTE: Braids, extensions and/or artificial hair may need to be temporarily removed to obtain an appropriate hair sample.

Will I need to take a physical?

A mandatory pre-placement health screening will include health history, vision testing, tuberculosis check, and vaccination record. This health screening takes place at one of many Aurora facilities after a contingent offer of employment is made.

What do I need for the required criminal background check?

As a health care organization, we're required by state law to complete a criminal background check on all of our newly hired caregivers. If you are offered a position with us, you will be asked to complete the Background Information Disclosure (BID) form which allows us to run the check. You should be prepared to provide information on any pending criminal charges, as well as any felony or misdemeanor convictions, and any guilty pleas or findings for municipal ordinance or tribal court violations. While very few offenses will prevent your hire, failure to disclose any of them may result in a withdrawal of the offer of employment, so please be upfront and honest on your BID form.

Does Aurora Health Care have a mandatory Flu Vaccine?

Yes. As an integral part of our wellness program, Aurora requires all caregivers to receive the annual flu vaccination. This helps to ensure that we are doing all we can to help each other live well, and to protect everyone's health and safety. This policy applies to all Aurora personnel, including caregivers, employed physicians, volunteers, all contracted personnel, plus students and trainees in any setting. There is an exception process for those caregivers with a nationally accepted, documented, medical contraindication or religious belief.

General Questions

What should I do if I'm interested in working for Aurora, but haven't found the right opportunity?

If you haven't found the right opening or aren't ready to submit an application just yet, join our Talent Network so we can keep you in mind for future opportunities that fit your experience and interests. We'll also keep you updated quarterly of our latest news, caregiver spotlights, newly opened jobs and more!

I'm interested in learning more about summer job or internship opportunities.

We offer some summer jobs, but they are not posted year-round. These positions are usually posted on the site in March or April. For internships, do a job search for "intern" or "extern" to see what's available.

Does Aurora provide training programs for clinical roles?

Yes! A list of opportunities can be found on our [Training Programs](#) page.

Troubleshooting

My search isn't providing me with the position I'm looking for... or any positions at all.

If your job search has produced results that aren't quite what you were looking for, try using a different keyword, less specific or fewer search criteria. NOTE: If you searched for a specific Job Opening ID and the position does not show up, that may mean it has been filled.

Nursing

Grow your career on your own terms. Aurora will provide the support, tools and resources to develop professionally, in whatever setting is best for you. Your voice as a caregiver will be heard clearly whether you're at one of our large hospitals or at a smaller facility. Through positivity and friendly collaboration, we'll help you move forward and be inspired.

Find a Nursing Job

Across our system, we have hundreds of nursing roles available to suit your skills and professional goals, while staying close to home. Start your search today.

[Nursing Jobs](#)

Up to \$6,000 Sign-On Bonus

As our demand for nurses grows, we're seeking top talent with at least one year of experience to join our team. Based on FTE and years of experience, RNs who join select locations in 2019 will receive a sign-on bonus.

[Learn More](#)

Quality of Care

Feel in-control and empowered, using your skills to provide patients with the very best care. We count on your expertise in caring for patients and their families - and in return, we'll ensure that you can count on us. We're here to guide you to long-term success. Because you're essential to them, and to us.

Teamwork

You are at the center of patient care at Aurora, with an interprofessional team of doctors, technicians, therapists, medical assistants and more at your side to drive the best patient outcomes. And when you need them most, you can rely on your team to support and empower you to be at your compassionate best.

Shared Governance

At Aurora, we maintain the belief that clinical decisions should be made by bedside nurses like you, which is why we established a governance process nearly 15 years ago, called Aurora Nursing Shared Governance (ANSNG). Shared governance allows your voice and the voices of other caregivers like you to be heard in matters concerning clinical practice, policies and procedures. More than 7,500 nurses come together to receive and share information, tools, training and support, to not only help you grow in your profession, but to continually improve the quality of patient care.

Career Growth

Whether you want to receive training and support or grow into a leadership role, Aurora will ensure that you're armed with the resources you need to be at your best. Our nurse managers lead by example, while also encouraging teamwork, open dialogue and active listening. You'll have the tools you need to deliver quality patient care, with tailored self-scheduling options, including full-time, part-time and float, to give you the work life integration you need to be at your best on and off the floor.

From community involvement to research, shared governance, and more, you're set up to succeed with programs like the Aurora Nursing Professional Advancement Model and the Success PaysSM Program, an ANCC professional development program that allows registered nurses to obtain certification by exam or certification renewal. The program offers the opportunity and funding for RNs to achieve certification in 12 months.

Meet Arlan

Arlan chose a career as an RN to better fulfill his life, and appreciates how Aurora supports him in his career journey.

Roles

Nursing Students

Gain knowledge and experience while earning your degree. Aurora will help with tuition and ATI testing as you work as a CNA or extern at any of our facilities, statewide.

Certified Nursing Assistant

Work directly with patients and their families, helping those in need under the wing of an RN or LPN. As an Aurora CNA, you'll begin to see your career as a health care provider evolve and take shape, paving your path forward. [Learn more about our Certified Nursing Assistant roles and opportunities.](#)

Nurse Extern

Administer medications, IVs and admission assessments to supplement your education in an accredited nursing program. Scheduling is flexible, so you'll forge your own path forward while providing total patient care.

New Graduates

We view you as a professional, meaning you'll almost always begin your career in a hospital. You'll have your own practice and be involved in decision-making as we coach and mentor you. Throughout, you'll have individualized plans to become the nurse you want to be.

Nurse Residency Program

The one-year Aurora Health Care Nurse Residency Program is here to help you grow professionally with guidance from supportive cohorts, training opportunities and monthly interactive learning sessions focused on patient outcomes, leadership and other professional roles.

Experienced Nurses

Aurora will empower you to be your best, building on your interests and expertise. You'll have a voice with us, so tell us what matters to you to begin your path to success.

Leadership

Aurora's career development model and shared governance opportunities allow you to grow into the leader you want to be. If you're self-motivated, driven and emotionally intelligent, with a BSN or higher, you'll be on your way toward a future of career advancement and success.

Non-Traditional Nursing Roles

Work behind the scenes while making a difference in the lives of others. Whether you're a quality improvement coordinator, RN case manager, clinic supervisor or data analyst at Aurora, you'll play an instrumental role in our success as an organization, and be valued for your unique talents and contributions.

Settings

Aurora at Home

Aurora care is 24/7, so you'll have more opportunities to determine plans and educate patients and families. Supervise medications and injections, manage chronic disease, monitor vital signs, counsel on nutrition, and provide care to patients in palliative and hospice settings well beyond the hours of 8-4:30.

Behavioral Health

Thanks to caregivers like you, Aurora Psychiatric Hospital has been among the best in the nation since its inception in 1884. You'll be a part of a strong team, treating patients with depression, anxiety, eating disorders, and substance abuse in inpatient, outpatient, partial hospitalization and day treatment settings.

Clinics

Build therapeutic relationships through a continuum of care in outpatient and clinic-based locations. You'll promote healthy behaviors and wellness, while treating complex medical conditions, as you learn several areas of care and diagnosis in one convenient location.

Hospitals

Choose your specialty at one of our 15 Wisconsin hospitals. You'll work with internationally recognized providers at world-class facilities, where you'll be a part of a collaborative and solution-driven team.

Join Our Talent Network

Stay current with Aurora news and events, connect with recruiters to find the perfect position, and be alerted to in-demand jobs.

Professional Associations

American Association of Men in Nursing (AAMN)

The American Association of Men in Nursing has a mission to shape the practice, education, research and leadership for men in nursing and advance men's health. Aurora has partnered with the Southeastern Wisconsin chapter since 2016. Our nurses and advocates participate in monthly meetings, panel events and info sessions at local universities, as well as community events to promote men's health and support and mentor men in nursing. You don't have to identify as a man or be a nurse to join.

National Association of Hispanic Nurses (NAHN)

The National Association of Hispanic Nurses Greater Milwaukee chapter's mission is to impact community health and wellness, mentor youth to encourage pursuit of careers in nursing, and to inspire, guide, and promote Hispanic nurses to seek higher education and leadership roles within health care systems and the nursing profession. The Greater Milwaukee NAHN chapter is new in 2018, but board members have been serving and supporting our community in a variety of ways. Consolidating knowledge, expertise, and resources will allow us to create a bigger impact. You don't have to be Hispanic or be a nurse to join.

National Black Nurses Association (NBNA)

The National Black Nurses Association's mission is to represent and provide a forum for Black Nurses to advocate and implement strategies to ensure access to the highest quality of healthcare for people of color. NBNA's Milwaukee Chapter volunteers at health and wellness events, advocating for our community's medical needs, but the chapter also develops and supports our black nursing community in their professional growth and development.

How You'll Make a Difference

Responsible for all activities related to assigned visits and communicating changes to the primary Registered Nurse. Oversees the primary needs of the patient, including assessment of patient and plan of care, and implementation of prescribed interventions.

- Performs all scheduled visits and collaborates with members of the interdisciplinary team as necessary.
- Conducts thorough physical, psychosocial and environmental assessments of assigned patients and updates plan of care where appropriate and as a result of visit finding. Follows a care plan, which identifies problems (nursing diagnosis) and evaluates outcomes within a certain time frame.
- Communicates with physicians to confirm and update patient's plan of treatment that may be necessary as a result of assigned visits. Communicates those changes to the primary registered nurse.
- Provides on-going assessment of patient response to treatments, medications and teaching and applies interventions as appropriate. Updates and revises care plan as indicated.
- Schedules patients and case conferences with primary registered nurse.
- Assists with the discharge planning process according to agency standards and utilizes interagency/system and community resources to assure continuity of care after discharge.
- Accurately documents and updates patient records according to agency, state and federal guidelines.
- Communicates problems to physicians and primary Registered Nurse, and clearly states plans, actions and goals so that changes are reflected as they occur.
- Follows published policies and procedures and regularly monitors changes or additions to them.
- Performs various patient positioning and transporting duties, which require lifting and pushing/pulling, while utilizing proper technique.

Qualifications

License & Certifications

Registered Nurse license issued by the state in which the team member practices, and Basic Life Support (BLS) for Healthcare Providers certification issued by the American Heart Association (AHA) needs to be obtained within 6 months unless department leader has determined it is not required, and A valid drivers license issued by the Division of Motor Vehicles, or Driver license issued by the state of Illinois.

Education

Associate's Degree in Nursing.

Experience

Typically requires 2 years of experience in nursing.

Proficiency in clinical skills with the ability to work under direction and make sound judgments. Excellent communication (written and verbal) and interpersonal skills. Ability to develop rapport and maintain positive, professional relationships with a variety of patients, staff and physicians. Demonstrated ability to effectively make critical, independent decisions. Good organization, prioritization and problem solving skills. Ability to multi-task with frequent interruptions. Must possess and provide proof of a valid Driver License and a registered, functional car with adequate insurance coverage.

At Aurora Health Care

We pride ourselves on taking care of our people. And not just our patients—we mean you, too. We help each other live well. When you work at Aurora, you get the chance to work with a dedicated team that's as passionate about the work as you are. Here, you'll find limitless opportunities for ongoing learning, career advancement, competitive compensation and a stable work environment. But more than that, you have the opportunity to change lives—including your own.

Diversity and inclusion matters at Aurora. We celebrate our differences and nurture an environment where everyone feels included. We know that when we reflect the communities we serve, when we embrace differences and bring our whole selves to work every day, we are working as one to build a healthier tomorrow for everyone. Aurora supports a safe, healthy and drug-free work environment through criminal background checks and pre-employment drug testing. We maintain a smoke-free environment at all our locations. We are an equal opportunity employer.
